Expectations:

- Equitation skills in performing smooth elegant maneuvers and transitions score higher. Understanding what the pattern calls for and planning arena space will enhance the performance. There should be a definite distinction in stride length between the jog and extended jog.
- This pattern is asking for the athletes' BEST lead changes. The following is the general guideline for scoring lead changes (the scores are maximum possible if every part of the element including the lead change is perfect):
 - Flying Lead Change - 0- 10 points
 - Interrupted Lead Change - 0- 8 points
 - Simple Lead Change - 0- 6 points
- Clearly, the goal is a perfect flying lead change, however, this allows for athletes to work into this maneuver. Remember, perfect means; equitation, hands, change (no steps in an interrupted, few steps in a simple, no disunited steps in a flying and so on.)
- This is an equitation class. Body position of athlete is scored; behavior of the equine is considered the direct result of the athlete's horsemanship skills.
